

Tablets

Case Specifications

Alchemy reviewed multiple cases that may fit the quality and safety needs of our customers utilizing Coach in the workplace. Consider the below specifications when choosing a case that may be suitable to your workplace environment.

Biggest Dangers to Tablets in a Manufacturing Environment

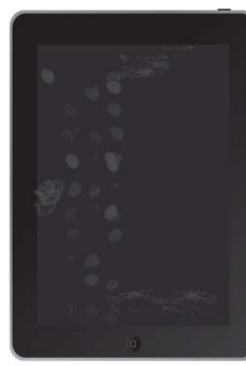

Drop / Crush

Moisture

Dirt & Dust

Theft*

*While cases cannot prevent theft of the device, it is important to have a plan of action to protect your device. Many clients prefer to store their devices in a locked cabinet when not in use.

Specifications to Consider

IP – Ingress Protection Rating: Classifies and rates the degree of protection provided against the intrusion including body parts such as hands and fingers, dust, accidental contact, and water by mechanical casings and electrical enclosures.
