Export And Edit Alchemy Videos

Videos from Alchemy Content can be exported and voiced over. You will also be able to update the Subtitle text as needed. To edit video you will need a 3rd party video editing application.

OPTIONAL: Export and Edit Alchemy Video Content

- A. Select the Video slide
- B. Select the Video Export icon
 - Save the exported file
- C. Edit the video in the 3rd party software of your choice
 - Save with a new file name to differentiate the videos
- D. Select the Import icon
 - When asked to replace current video, choose 'Yes'
 - Add the edited file to the PowerPoint slide
